Lake Mary Montessori Academy

September 2011

VOL. 1 ISSUE 1

NEWS FROM THE TEACHER'S DESK:

Dear Parents,

We want to welcome you and thank you for such a wonderful start to the new school year. The students have enjoyed many new lessons and are progressing nicely in all academic areas. In each of our newsletters the students will share with you some of the exciting lessons and activities that have taken place that month. Thank you so much for all of your support and as always, please contact us if you have any questions.

Sincerely,

Miss Pratt and Mrs. Daly

The First Great Lesson

Mrs. Sienkiewicz started the lesson talking about how the solar system was once all black. Then she popped a balloon with a needle and sparkles went everywhere. Next, she had three liquids: honey, water, and oil. She poured all three into a container. Honey was the heaviest.

Water was the second to the heaviest liquid. Oil was the lightest liquid. The next experiment was a volcano. She had a volcano and poured water and colored the water red like lava and it looked like a real volcano was erupting.

By: Jaidyn Holt

Once, there was nothing. No stars, no planets, just nothing. Then energy exploded everywhere. Particles went down and everywhere. The lesson was in the Van Gogh classroom of Lake Mary Montessori Academy.

DAVINCI NEWS

Up-Coming Events

- 10/6 – School Closed / TWD Teacher Work Day
- 10/7-10 – Fall Break
- 10/13 – Elementary “Family Style” Lunch (Students Only)
- 10/24 – International Day
- 10/31 – Historical Presentations

Enrichment

Hi, my name is Nate and I'm going to talk to you about enrichment! I will tell you about PE, Social Skills, Music, and Art. In Art I paint fun things and in PE I exercise by doing fun games. In music, I play songs on the piano. And last but not least, Social Skills! In Social Skills I learn about peace by Mr. Pearce. I play peace games. I love school!

On-Site Excursion

An Archaeologist came and showed us pictures of gross stuff and brains. It was cool! We also saw germs on something. I also liked the picture of the skull with a hole in it.

Practical Life Lessons

One day the teacher showed us how to use the lemon juicer. You had to put the lemon on the juicer and squeeze and turn the lemon so the juice came out. It was a bit different with the waffles. We put it in the toaster for about five minutes. Then most of us put syrup on it and ate it with our hands!
