

Orlando Museum of Art

Art Museum By Divya

I enjoyed the dig and discover program at the museum. I saw a work by Dale Chihuly. I would like to go back. If I worked in the art museum, I would spend time looking at the art. I would love to go on a tour.

Museum by Carson

We were digging for some pottery. I liked the art. I went with my dad. I would like to take a friend.

Art! By Martin

I went to a museum and it was really fun. I saw a picture was hanging on the wall. It looked weird. It was a random picture of a face with a triangle for an ear. Also, there was a picture of a man carving wood with an ax. I saw a cool sketching of a man that was playing soccer.

Orlando Museum of Art by Jack

I went to the Orlando Museum of Art. We looked at different kinds of art and I was amazed. We were digging for small old artifacts and we found a lot of them. After that, we made a puzzle. I had a blast at the cool museum.

“How To” Writing Lesson

How to Build a Bird House by Sara

1. Get Wood.
2. Buy Nails.
3. Put the wood together with nails.
4. Paint it.

Happenings in the classroom...

Stuart Little By Jack

Stuart Little is a book that we are reading at school and it is very cool. It is an adventure about a mouse who does many daring things, but no one knows if Stuart Little will make it! I can't wait until the end.

Central Theme Story By Clay

My favorite work in the whole entire class is central theme story. Anybody who loves to write will like this work, because it is a card that helps you think of ideas to use in your creative writing. There are many different cards. There are cards about countries, sports and more. You don't have to use a card for creative writing, if you don't want to.

Carrot Peeling By Collin

The teacher gave us a lesson on carrot peeling. She told us the steps and when the lesson was done, she put it on a desk. There was a sharp peeler to use on the carrot. To start, get a tray and then put down a napkin. Then, use the peeler by pushing away from you. After you are done peeling the whole carrot, you can eat it.
