Hugo, Jilli, and Katie.

Bike Excursion – Olivia Mertin

One day, my school went on a bike ride. We went over a big bridge and over a big hill to a fence where there were horses. We got to feed them and pet them. And I saw a dead rat in the middle of the road. I had a very fun day.

Lobsters – Hugo Martinez

During the month of February, we have been studying lobsters. Lobsters are crustaceans. They have a hard, crust like exoskeleton. The antennas are connected to the cephalothorax and they help the lobster smell, touch, and navigate. The claws are connected to the cephalothorax. I enjoyed researching lobsters.

Valentine's Day Celebration – Jilli Oetjen

This Valentine's Day was great. We all made cards

and we all got to make flowers. We got to decorate cookies and marshmallows. We put the marshmallows on the cookies. At the end of the day, we got to eat the cookies. It was yummy and we had a good time.

During the month of February, we had a Valentine's Day Celebration. It was so much fun. The very best part was being with my daddy.
